

August 8, 2007

Mr S M Zimmerman
Acting Director – Office of Congressional and Public Services
Surface Transportation Board
393 E Street, S W
Washington, DC 20423-0001

Subject: STB, Rail Energy Transportation Advisory Committee

Dear Mr Zimmerman

I offer the following in support of my candidacy for selection as a member of the Surface Transportation Board, Rail Energy Transportation Advisory Committee. If selected, I am willing to serve a two year term as a member

Name	Robert S Hulick
Title	Senior Vice President Business Development
Company	TrinityRail
Represented Interests,	Railcar designer, manufacturer, lessor, services provider
Credentials	Thirty-one years of experience in the rail industry including technical sales responsibilities with a component supply company (WABTEC), a senior management position with a railroad owned pooling company (TTX Company) and most recently serving in the capacity of Senior Vice President Business Development with TrinityRail. With responsibility for Product Development, Marketing, Field Services and Management Services my focus goes beyond the railcar to rail network operations, infrastructure and services. This activity encompasses the energy market including power generation and biofuels. Rail transportation in the energy sector includes coal, renewable fuels, the co-products of the processes and the feedstocks. I have extensive experience in all these market segments and can provide a valuable perspective to discussions and committee work related to railroad transportation of energy resources.

I appreciate consideration for my membership and pledge to maintain an open dialogue with all affected parties as the committee discusses emerging issues impacting railroad transportation of energy resources.

Sincerely yours,

Robert S Hulick
